

covid-19

## *Artist Statement*

*In times of crisis the artist is forced to indentify and refine a vision of the présent «new normal».*

*Confined in the silence of my studio I needed to abandon the past, be blind to the future and evoke through my drawings the inherent emotional traumas engendered by the sudden collapse of society due to the Covid-19 virus.*

## *Présentation*

*En temps de crise, l'artiste est replié sur lui même contraint d'identifier et d'affiner une vision de «la nouvelle normalité».*

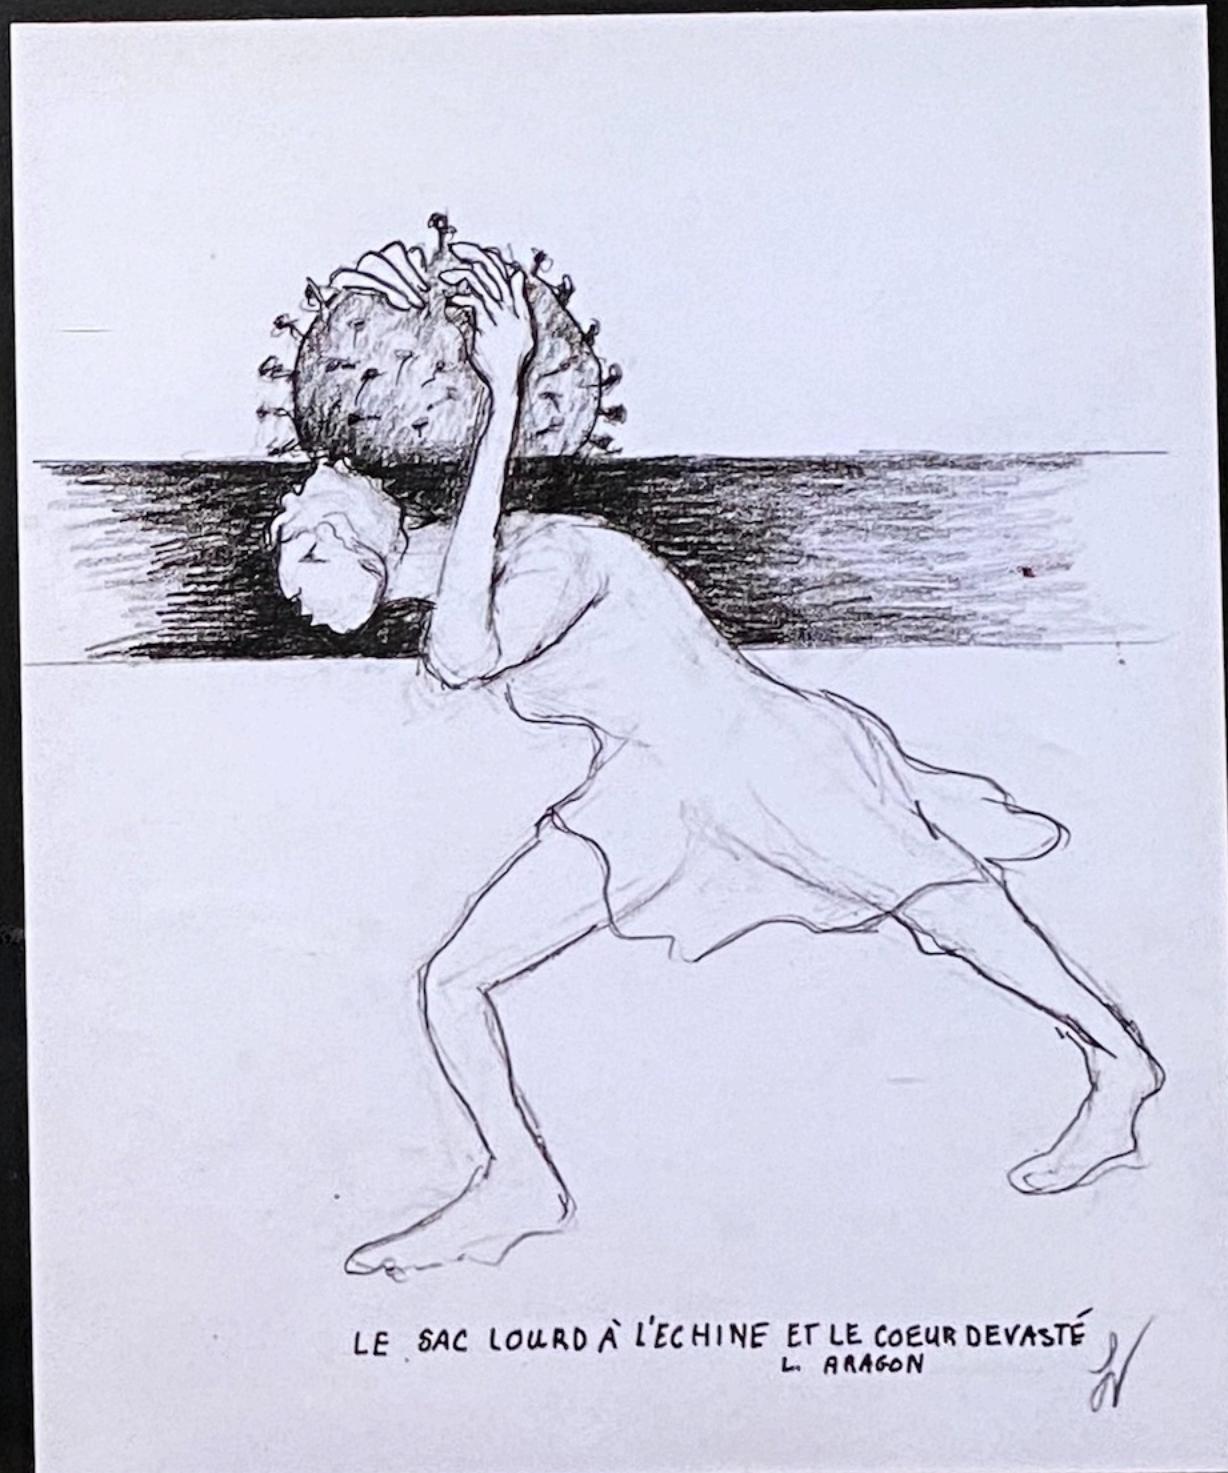

*Confinée dans le silence de mon atelier, j'avais besoin d'abandonner le passé, d'être aveugle à l'avenir et d'évoquer au crayon sur papier le traumatisme émotionnel engendré par l'effondrement soudain de toutes les sociétés face à la pandémie de Covid-19.*
